DETAILED ACTION

Reissue Applications

1. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,254,105 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Oath/Declaration

2. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

a) Regarding the statement of at least one error, the specific changes or amendments to the claims must be identified, and if new claims are presented, their differences from the original claims must be pointed out (MPEP 1414 (II)(C)); and

b) The oath or declaration must state that “all errors being corrected in the reissue application *up to the time of filing of the oath or declaration* arose without any deceptive intention on the part of the applicant” (37 CFR 1.175 (a)(2)).

3. Claims 1-4 and 6-46 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

Art Unit: 3677

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

Claim Objections

4. Claim 5 should be included in the claim listing without text (i.e. "5. (CANCELED)").
5. Claims 23-46 are objected as claims added to the patent (new claims) must be underlined in their entirety per 37 CFR 1.173(b)(2). Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. Claim 43 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
7. It is unclear if the retention means recited in claim 43 is referencing the retention means previously recited in claim 18.

Allowable Subject Matter

8. There are no prior art rejections of claims 1-4 and 6-46.
